Also thank you to the members of the P&C for the successful past year with events they have organised. I am looking forward to working with you closely.

Additionally we held our assembly due to the significant attendance from Tallong families and friends. I want to thank our community for valuing our small school and public education.

# Enrolment policy

## Information for parents

The Enrolment of Students in NSW Government Schools policy is in place to assist schools to meet their obligations under the *Education Act 1990* - to ensure that every student has a place at their local school. The policy also communicates to staff and the community a transparent enrolment process.

### Why was the enrolment policy revised?

Across the state, many communities are changing. Some are growing at rates never seen before. Some schools that used to be able to accept out-of-area enrolments, no longer have the room to do so.

The revised policy is designed to support schools to manage all enrolment applications, encourage greater consistency in decision-making and make sure the enrolment choices are clear for parents.

### What are the changes?

#### The enrolment cap

The enrolment cap is the number of students that can be enrolled at a school based on the school's permanent accommodation. The enrolment cap tells us whether the school may or may not have the capacity to accept non-local enrolments. It is not a target or limit on the number of local enrolments a school can take.

Each school with a local intake area will have a cap set by the department from Term 4 2019.

Within the enrolment cap, a number of enrolment places (the buffer) must be kept aside for the likely number of local students who will need to enrol during the year. For this reason, a school will not take non-local students once they reach their buffer, unless there are exceptional circumstances.

#### 100-point residential address check

Parents planning to enrol their child at a school that is near or at their buffer or cap will be asked to complete the 100-point residential address check to confirm they live within the school's designated intake area. This means you will need to provide documents to verify your child's current address.

So that schools only seek information relevant to your child's enrolment, a list of approved documents for the residential address check is available from the school or the department's website at <https://education.nsw.gov.au/policy-library/policies/enrolment-of-students-in-nsw-government-schools>.

#### Selection criteria for non-local enrolment

Sibling enrolments are now clearly prioritised (where possible) and selection criteria for non-local enrolment will not include student ability, performance or achievement.
